

PATRIARCH LIFT KIT

Lift Kit for Case IH Patriot and SPX series sprayers. Increases ground clearance an additional 13 inches making it ideal for late season fungicide or fertilizer application on tall crops. Install once as the leave in design can be used for small to large crops, and will also interchange with 46 inch wheels, 50 inch wheels and 38 inch floater wheels

SEIBERT
INDUSTRIES

An under frame height of 72 inches allows the operator to Ground apply fungicide and fertilizer applying more gallons for better plant and field coverage.

Hydraulic hoses do not have to be extended and will still allow the axles to extend out to straddle 5 - 30 inch rows

Fitment: Patriot 3230, 3240, 3330, 3340, 4420, 4430, 4440; SPX 3210, 3310, 3320, 4410
